Welcome Message

Colleagues and friends,

The **16th Asia Pacific Cervical Spine Society (APCSS)** Meeting is going to be held on **March 9–11, 2023**, at the **Bali Nusa Dua Convention Center (BNDCC)**. The theme chosen for this meeting is “Spinal Plastic Reconstruction: The New Frontier?”

The 16th APCSS will put forward a collaborative effort between spine surgeons and plastic and reconstructive surgeons. As reflected in the theme, this meeting will highlight the latest techniques in spinal plastic reconstruction in a live surgery format that will be accessible to all meeting participants.

We are truly honoured and thankful for the acceptance of many international speakers who will share their knowledge and experience in various cases of cervical spine management in plenary and satellite sessions.

This meeting will be held in an online format, and please be assured that we will adhere to the health protocol. Please visit the conference website (www.apcssbali2023.org) for a detailed program, registration, and accommodation booking with a special rate for APCSS participants.

We do believe this meeting will be a great forum for you to establish and strengthen your knowledge as an expert in cervical spine management. Therefore, we warmly welcome our fellow neurosurgeons, orthopaedists, plastic surgeons, and other spine specialists to actively participate in this meeting and submit your scientific writing.

I will see you soon in Bali, and please bring your family along to enjoy post-Congress sight-seeing in Bali and the nearby Komodo Island National Park.

Sincerely,

Alfred Sutrisno Sim

President and Congress Chairman, 16th APCSS

Abstract & Presentation Guideline

Guidelines and General Information for Abstract Submission "YOU NEED TO BE REGISTERED AS a PARTICIPANT OF THE APCSS 2023 FOR ABSTRACT SUBMISSION" Topic for abstracts of free paper and poster presentation must be relevant to Cervical Spine Surgery and Care. Please kindly pay attention to following guideline:

Important Guideline

- Abstracts must be submitted and presented only in English
- Committee will decide on the final presentation type (oral presentation or E-poster)
- It is the author's responsibility to submit a correct abstract. Any errors in spelling, grammar or scientific fact will be reproduced as typed by the author
- Main Author — Individual who is submitting the abstract. All correspondence will be done with the main author
- The abstract should have a short specific title (containing no abbreviations) that indicates the nature of the investigation. Title should be in boldface font. The title should not exceed 20 words in UPPERCASE only
- Keywords (up to four)
- Abstract Body (300-word maximum) separated into:
 - Objectives - At least two clear, and measurable learning objectives must be included with your abstract submission. Learning objectives are not included in the abstract word count.
 - Background - A brief statement on why the study was conducted
 - Methods - The method(s) of study or experimental approach must be briefly defined
 - Results - A summary of the study results, including sufficient details to support those conclusions must be described.
 - Conclusions - A statement explaining the significance of the work and its implications for further research
- List Authors — Up to 11 list authors can be included. Their full names with credentials, city and state or country must be included.
- Disclosure of conflict of interest — This is required for presenting author, as well as agreement with Terms and Conditions.

Please Note: graphs/tables/images should not to be included the abstract

Abstract Selection:

- Submissions will be reviewed and scored by independent reviewers to ensure high quality scientific submissions are selected for presentation at the meeting. The following criteria will be used to score submissions:
 - Title: clear description of presentation and its contents
 - Conciseness, coherence, clarity and focus of presentation
 - Innovativeness of ideas, methods and or approach
 - Methodology: research design if an empirical study, including clearly stated questions, data sources, data collection procedures, analytic approach and results.
 - Relevance, currency, appropriateness and significance of the topics/issue/problem

How to Name and Send the Abstract

File name format for Oral Presentation: Presenter name-topic

- For online submission of abstract and for guidelines please log on to www.apcssbali2023.org
